HIGH PERFORMING HYDROMULCHES & GEOWEB HEADWALLS WEBINAR - 2 PARTS

.....

PRESENTED BY

Trent Daavettila, P.E.

CSI Geoturf

.....

Join us for a set of 30-minute webinars where you'll learn about new innovative, cost-effective erosion control solutions.

In this webinar series you will learn about new cost effective Hydromulches that can reduce construction time and cost. You will also learn how to design and install a Geoweb MSE Wall.

PART 1

**12:00 PM - 12:30 PM EDT
Thursday, March 18, 2021**

High Performing Hydromulches
Case Studies

PART 2

**12:00 PM - 12:30 PM EDT
Thursday, March 25, 2021**

Geoweb Headwall
Case Studies

MARCH 18 & 25, 2021 at 12:00 PM

HIGH PERFORMING HYDROMULCHES/ GEOWEB HEADWALLS WEBINAR

Presented by Trent Daavettila P.E.,
CSI Geoturf's Project Consulting Engineer.

PART 1

In this webinar you will learn about new cost effective Hydromulches that can reduce construction time and cost. These High Performing hydromulches have already been used successfully around the state and we will review a few case studies. One neat product is an alternative topsoil or compost.

PART 2

In Part 2 of the webinar series you will learn how to design and install Geoweb Headwall for culvert. These headwalls are not only eco-friendly but are a cost effective alternative to concrete. We will also go over a few case studies from local projects in Michigan.
